

Apple Authorized Training Centers for Education

# Preparing students for careers with in-demand skills

The Apple Authorized Training Centers for Education (AATCe) program provides unique benefits to education institutions that have demonstrated their commitment to teach app development with Swift. The AATCe program includes instructor training and rich opportunities to connect with like-minded peers globally and inspire others to advance in-demand skills development in education.

## Program Benefits

### Global Community

- Ongoing program updates and insights from AATCe
- Access to AATCe events and global peer connections
- Connections with the Apple Education team

### Learn and Grow

- Instructor training and educator resources
- Resources to support students' skills and career readiness development
- Product news and Apple Developer resources

### Resources

- Access to approved AATCe signature and signage
- Guidelines and resources to share AATCe impact stories
- Certificate of Achievement for Apple Certified Trainers

---

“Being part of the AATCe program was essential to development of the UAL Diploma in Apple Development at the University of the Arts London to give students new ways to express themselves, unlocking a new superpower that they didn’t know they had.”

**Joel Gethin Lewis**

Course Leader, UAL Diploma in Apple Development Creative Computing Institute, University of the Arts London

---

## Program Requirements

Set up an **innovation lab** with Mac and testing devices.

Commit to teach **Develop in Swift**.

**Certify** course instructors

Sign the **AATCe Agreement**.

## App Development with Swift

When students learn app development, they're not just learning the language of technology. They're learning new ways to think and bring ideas to life, new ways to make an impact on the world. Swift is used to build many of the world's most popular apps. Learning Swift and SwiftUI allows students to build skills that are used to create many of the apps you may use every day. And students can use those skills to make a difference in their communities, careers, and beyond.

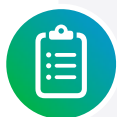

### Instructor capacity

Apple provides free training, [Develop in Swift Tutorials](#), and educator resources to prepare faculty to teach confidently.

### Developer tools

With Mac — plus Swift, Xcode, and free developer tools from Apple — students have all they need to build incredible apps.

### Learning resources

[Develop in Swift Tutorials](#) introduce students to app development with Swift and Xcode and are complemented with free AATCe instructor training.

---

**"Attending an AATCe ignited my passion for coding, leading to three Swift Student Challenge wins. It has given me the confidence for bigger challenges, shaping a path to a future in software development."**

**Alessio Garzia Marotta Brusco**  
Student  
Istituto Sacro Cuore, Italy
